NEW FRENCH CANNAS. We ask atttention to the full page list of nearly all leading kinds and novelties elsewhere in this book. We invite correspondence from all interested in Cannas. We have several newer sorts not yet introduced and aim to keep in front on New Cannas.

FLORISTS' FLOWER SEEDS. Our motto "All Florists' Stock in Season" is not forgotten in these. We deliver the new crop seeds as soon as they have ripened and can be secured, but we do not sell old seeds for new.

• BUSINESS CONDITIONS. •

Terms on Florists' Stock: To customers of approved credit 60 DAYS, except on certain CASH items. Special 3 per cent. discount for cash in 10 days, (from these list prices only,) not from "Special" quotations and excepting NET CASH items.

New Accounts: New customers, if not already well known, will please send cash with first order and if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is often very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For references please name bankers, wholesale merchants or other well-known business men with whom you have had dealings—such information will be held in confidence.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order; PERISHABLE stock, plants, etc., are POSITIVELY NOT SENT C. O. D.

Our Responsibility: While we always aim to have the best BULBS AND DORMANT PLANTS which each season affords from reliable houses, we cannot and we do not guarantee any of them to flower or produce a crop of flowers at the prices given, nor will we be responsible for the crop. We assume our customers to be acquainted with these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when such plants are ordered by freight by the purchaser. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

Fall Bulbs are usually ready:

JUNE.—FREESIAS, Plant for Xmas.
JULY.—LILIUM HARRISII, for first planting.
AUGUST 1.—ROMAN HYACINTHS.
AUGUST 25.—NARCISSUS, LILIUM CANDIDUM.
SEPT. 15.—HYACINTHS, TULIPS and Dutch Bulbs.
OCT. 1.—LILIES, CHINESE NARCISSUS.
OCT. 20.—AZALEAS, GLADIOLUS.
NOV. 10.—SPIRÆA and LILY OF THE VALLEY.

☞ When you order, please state if we shall ship as soon as bulbs arrive or hold early kinds till others are ready, and state also whether you want them sent by freight or express. Please do not blame us for extra shipments if you do not give definite instructions.

Orders taken by our agents are always subject to approval by the house and no agent has authority to vary the above conditions.

ELECTROTYPES. ***Florists who desire to print a catalogue or circulars can have electros from us at reduced rates. Send us a list or proofs of what is wanted and we will quote exceptionally close prices.***

FORCING BULBS.

ROMAN HYACINTHS.

RESULTS last season verified the correctness of the recommendations made to our customers in favor of planting forcing bulbs at the low prices then prevailing. Though high values were not realized, the prevailing state of trade not admitting it, still, as a rule, all the product was disposed of at fair prices. Now for the coming season, the small advance this year over the very low prices of last, still holds our advice good. The dull season is past and you are ready for that half of the year during which all ***money must be made*** in the florist business. Without stock you cannot do business, and the expense and time already gone can only be made up by active effort the coming months, and with ***stock to do business on.***

But few florists even among those who know how well it can be done, really avail themselves of the various forcing bulbs for furnishing a continuous supply of cut flowers through the Winter and Spring. By planting at intervals, by storing in cold frames and pits and by other methods, Roman Hyacinths, Harrisii, Tulips, Lily of the Valley and most other forcing stock can be had in bloom during the Winter and Spring with very little extra expense and with much better average profit than when the same are forced in large lots for special seasons.

ROMAN HYACINTHS.

This stock, while a trifle higher than last year, is still 150 per cent lower than it was five or six years ago, and ***surely remains profitable*** for the wholesale trade, and ***indispensable*** for the retailer during the bad winter weather when crops of other flowers are short. The bulbs are scarce and only the medium sizes can be had.

CHINESE SACRED LILY.

This is undoubtedly the best selling bulb for the retail counter trade on account of its easy growth in the ordinary living room; flowering in water and gravel in three to five weeks from planting. Chinese Grown, ready Sept. 20. Per 100, $5.00; per 1000 in Chicago, $45.00; per 1000 in N. Y., $43.50.

Bermuda Grown, ready now. Per 100, $4.50; per 1000 in Chicago, $37.50; per 1000 in N. Y., $35.00.

LILY OF THE VALLEY.

We shall deliver this stock as early as the same can be secured from Hamburg after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size, such as with proper handling ought to give most satisfactory results. So much, however, depends on the treatment of this stock in forcing and storage that we will not assume any responsibility for the crop.

BEST HAMBURG PIPS.—Per 100, $1.00; per 1000, $8.75; per 1000 in 5000 lots, $8.50 in 10,000 lots, $8.00. We do not handle the lower grades of this stock.

BEST BERLIN PIPS.—Price, $1.00 per 1000 higher than the above.

CLUMPS.—Extra strong. Doz., $2.25; 100, $18.50.

In forcing Lily of the Valley the following points should be observed: For Christmas flowers they should be planted by December 1st, as you can always calculate on twenty-one days from the time of planting to that of cutting your first flowers. They do best in benches in about six inches of sand. Give plenty of moisture and a temperature of 75° to 90°. Shade your house from the direct rays of the sun and water twice a day with tepid water until the flowers begin to open, when water should be withheld, as the flowers become easily watersoaked.

GLOXINIAS.

Our strain is unsurpassed being the best to be obtained in Europe. It is composed of Erecta and Horizontal sorts, combining the greatest variety of color and markings. We are sure they will give satisfaction. Per doz., $1.20; 100, $9.00.

STROBILANTHES DYERIANUS.

STROBILANTHES DYERIANUS.

ROYAL PURPLE.

A new house and bedding plant; was awarded the Gold Medal offered by the King of the Belgians at the Ghent exhibition. It forms a compact bush eighteen inches high, with leaves six to nine inches long, three to four inches wide, and of the most intense *metallic purple* color, shading into light rose with a light green margin, a combination unapproached by any other plant. The flowers are a lovely violet-blue, very beautiful. Mr. Pfister, of the White House, Washington, put it in the open border, where it grew and colored up beyond all expectation in a very exposed position. It has created a veritable sensation wherever exhibited, and will be grown by the thousand as a bedding plant, while at the same time one of the most brilliant decorative plants in existence; for table ornament, parlor or greenhouse, nothing can equal it. Price, 2½ inch pots, per dozen, $2.00; per 100, $12.00.

SWAINSONIA GALEGIFOLIA ALBA.

Most profitable plant, producing spikes of pure white flowers from four to six inches long in the greatest abundance the entire year. The flowers are exactly like a small Sweet Pea and last well when cut. It requires the easiest kind of culture—as easily raised as a Geranium or Heliotrope. It does best in a temperature of from 45 to 54 degrees. Strong plants from 2½ inch pots, per doz., $1.25; per 100, $8.00.

It bears from twenty-five to fifty immense odd shaped flowers at a time; these, when open, measure about 12 x 18 inches, not including the long tail-like appendage about 2½ feet in length. Our stock has been propagated from original plant shown at the World's Fair. Price, 2½ inch, each, 30c.; 3½ inch, each, 75c., plants 3 to 4 feet high.

THE CALIFORNIA VIOLET.

Plant vigorous and absolutely free from disease; flowers single, immense in size, covering a silver dollar; color violet-purple (does not fade); fragrance intense; flowers borne on strong stems ten to fourteen inches in length. CANNA NOVELTIES.

PRICES BASED ON DELIVERY OCT. 15.

MEDAL WINNING

Varieties controlled by us and offered for the first time in Spring, 1895.

These novelties we consider of great value and permanent additions to the high class Cannas, they are the cream of twenty kinds chosen by M. Crozy from his entire stock of seedlings to represent his best achievements in Cannas up to 1893, (excepting Queen Charlotte).

CHICAGO.—(Medal awarded.) New. Best vermilion scarlet to date; 4ft., green foliage with leaves 9 to 10 inches wide, flower truss and stalk stand boldly erect. The large flowers open out nearly flat, petals 1½ inches wide and five in number—in this respect the Chicago fairly out-classes all Cannas, the fifth leaf adding much to the blossom and flower spike. The color is a clear, deep vermilion, smooth and without markings except a purplish gloss. Each 50c.; doz., $4.00; per 100, $25.00.

QUEEN CHARLOTTE. New German Canna.—A most distinct flower, rich crimson-scarlet with wide gold l order on every petal. A very handsome plant, medium in height, c mpact grower, broad, green leaves. It is a profuse bloomer, and the flower-spike which is full and well formed, stands well above the leaves, yet not so tall as to appear drawn or ungainly. Each, 30c.; dozen, $3.00; per 100, $20.00.

MIDWAY.—(Medal awarded.) 4½ feet, green foliage, strong grower, color, rich vermilion slightly streaked with faint crimson; petals 1⅝ inches wide, compact flower spike, a strong grower and free bloomer. The crimson streaks and splashings in the petals make a splendid effect on their back ground of scarlet. Each, 50c.; doz., $4.00.

MRS. J. M. SAMUELS.—4 feet, foliage green with purplish stems; leaf medium; free flowering, flowers large and deep salmon, heavily dotted with crimson spots; strong grower and a good sort. Each, 25c.; doz., $2.50.

MRS. F. L. AMES.—(Medal awarded as No. 120.) 4 feet. Green foliage, petals wide but short, color deep salmon, dotted slightly with crimson. Reverse of petals salmon yellow. Each, 35c.; doz., $3.00.

J. WILKINSON ELLIOTT.—4½ feet, green foliage, flower-spike large and open, petal long and broad, color light vermilion, covered lengthwise with fine distinct crimson veins, slightly edged with yellow. Each, 25c.; doz., $2 50.

M. MESNIER.—(Medal awarded.) 3½ feet, dark-green foliage, sturdy growth, flowers large, petals wide, color salmon, slightly dotted and streaked with red, which is deepest in the center of the flower. Petals are bordered with a narrow rim of yellow which is irregularly wider on the ends, often ¼ to ⅓ inch wide. Each, 35c.; doz., $3.50.

GENERAL DODDS.—4 feet, rich deep bronze foliage, good grower, flower deep vermilion with slight crimson dots; flowers of good size and reflexes more than any other Canna. Each, 50c.; doz , $4.00.

OCTAVE MIRABEAU.—(Medal awarded.) 3½ feet, green foliage, flowers large, petals wide, color a deep vermilion, painted with finely penciled lines of orange yellow and crimson; the back of petals the same. Very handsome. Each, 50c.; doz., $5.00.

MADAM ALPHONSE BOUVIER.—3¾ feet, foliage medium green, flower large, well opened. The color is that of Madam Crozy, tinted with dark crimson spots like Crampbel. The yellow edge is irregularly wider with clear yellow spots on upper and lower edge of petals into the throat of the flower; a magnificent Canna; scarce. Each, 75c.; doz., $7.50.

P. J. BERCKMANS.—5 feet; long and narrow green leaves, strong grower, flower-spike compact, standing well above the foliage; free flowering. Flower large, in color bright cherry red, almost identical with the variety Ehemanni; the petals reflex in a graceful form. Each, 25c.; doz., $2.00.

SPECIAL OFFER: One each of above Eleven sorts for $4.00.

NEW ROSE, "PINK SOUPERT."—We find it a very free-flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster bloom and will make a handsome contrast bedded or grown with C. Soupert. The flowers are not so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert, a rapid grower and quick to bloom.

CRIMSON RAMBLER. New Climbing Polyantha.—This new red climbing Polyantha, introduced from England last season, has made the most decided sensation of any recent new rose and mainly on account of its wonderful free flowering habit, throwing up, as it does, large clusters in the Polyantha style with remarkable freedom, and making as strong a growth as the well known Prairie Queen. If it does not mildew, it is sure to be a great favorite and used by everybody for outdoor planting. Florists will do well to secure a stock of this at once, for the retail trade will certainly demand it. Price, 2 inch, per 100, $7.00; 2½ inch, per 100, $10.00; 3 inch, per 100, $15.00.

BELLE SIEBRECHT.—Siebrecht & Wadley's new hybrid Tea, a cross of La France and Lady Fitzwilliam. A true solid pink of rich shade; buds long, strong, erect, long stems, flowers of good substance, shipping well; free bloomer, and reported as likely to be one of the most profitable cut flower varieties.
Price, 2½ inch, per doz., $3.00; per 100, $20.00.

MRS. PIERPONT MORGAN.—This is a sport from Mme. Cusin and is in every way very much superior to that variety, being a much more robust grower, and the flowers being very much larger and very double, many of them measuring 4½ inches through when in perfection. The color is intensely bright cerise, or rose pink. The introducer Mr. May, as is well known was one of the original backers of the *Waban*. Price, 2½ inch, per doz., $3 00; per 100, $20.00.

American Beauty.—This Rose should grow in favor each succeeding year, and with its present standing and popularity it will be grown very largely the coming year. Price, fine plants, 3 inch, per 100, $9.00; 4 inch, per 100, $15.00.

Champion of the World.—Very extensively advertised in catalogue trade. Retail florists will certainly have a demand from their customers. It is full and double, a free bloomer. May be called an overgrown Hermosa, but more double. Price, 2½ inch, per 100, $4.00; 3½ inch, per 100, $10.00.

CARNATION.

The Guillaud or Riviera Market.

This we offered for the first time last season; has been obtained by careful selection from the Margaret, and is *far superior* to it or any other Carnation seed ever offered; the flowers are of *larger size, better substance, greater doubleness,* and more varied markings and colorings, many having grounds and shadings of *yellow,* a color which is very rare in seeding Carnations. They will also, like the Margaret, bloom when only about three months old, and taken up in the fall the plants will bloom during the winter. Pkt., 25c.

Carnation, Mad. Guillaud.—In this we have the best yellow, Carnation that will bloom from seed in four months. The flowers are *very large* and *double.* 100 seeds, 50c.

Carnation, Dwarf Margaret.—Giant white. Flowers very large and double, pure white with only an occasional pink streak. Trade pkt., 35c.

NEW DOUBLE PERPETUAL CARNATION.

Our Seed is Direct from the Originator.

As early as the Margaret Carnation, this new sort will be found invaluable for Florists. The plants grow up to 20 inches in height, and have handsome foliage. *The stalks are very stiff* like wire, and the flowers large and very double. The calyx rarely ever bursts, and the percentage of double flowers is very great, about 90 per cent. They are, as the name indicates, perpetual bloomers, and having seen these Carnations bloom in Mr Chaubaud's garden last summer, we have personal knowledge of the superior qualities of this sort. Pkt. 25c.

Carnation, fine double mixed. Oz., $1.50; pkt., 15c.

Extra choiced mixed. 500 seeds, 50c.; pkt., 25c.

Vienna Dwarf, they are hardy with a little protection and bloom early. Per ¼ oz., 50c.; oz., $1.50; pkt., 10c.

Grenadin, excellent for Florists' use; flowers salmon red. Pkt., 10c.

Grenadin White, a splendid white, comes true from seed. Pkt, 20c.

Rose Rivoire, coppery yellow, turning into soft pink. Pkt., 25c.

Margaret, blooms in three months from seed. ¼ oz., 50c. Pkt., 10c.

New Dwarf Margaret, an improvement on the above, flowers larger, more double and better colors, plants shorter and more stocky, mixed colors. Pkt., 25c.

New Dwarf Margaret, white, pink, scarlet, and striped each. Pkt., 25c.

TYPES OF PANSIES CONTAINED IN OUR INTERNATIONAL MIXTURE.

PANSIES.

PANSIES ARE ONE OF OUR SPECIALTIES and we take special pride and extraordinary pains to have the ***Very Best Seed*** obtainable, regardless of cost, and we believe that the increasing demand for our seeds, proves that these efforts are appreciated, and we ask you ***to try our Seed and be convinced*** of the above facts if you have never seen our Pansies in bloom. Crop 1895.

VAUGHAN'S INTERNATIONAL PANSY MIXTURE.

Florists who cater to a fancy retail trade must have the best Pansies that are to be had. There are very fine Pansies to be had in Europe and the mixtures can be had at low prices, but our experience has taught us that we must decidedly make our own mixtures. Pansies have always been one of our specialties and we have always made it a point whenever one of our firm was on a tour of inspection through the European seed farms to pay particular attention to Pansies and we have in this way succeeded in locating and securing the choicest strains, especially of some florists whose entire stocks have always been taken up by some local seedsman. All these special strains, as well as the best Giant and German Pansies, are contained in *Vaughan's International Pansy Mixture* and in the proper proportion; many red shades will be found in it this year. We are sure that plants raised from this mixture will secure you more trade.
